CLEVELAND, OHIO – February 5, 2008 - CRG Solutions, Inc., a national healthcare consulting firm, announces the hiring of Richard DeVine as Vice President, Supply Chain Management.

Mr. DeVine joins CRG Solutions with over twenty-three years of extensive Supply Chain Management (SCM) experience in both the manufacturing and healthcare industries. He is a recognized specialist in the areas of Healthcare SCM innovation and strategic planning, with extensive executive experience in financial process improvement, purchasing/distribution process redesign, and six-sigma project management. Throughout his career Mr. DeVine has helped numerous Healthcare institutions to reposition their Supply Chain as a strategic department, achieving significant and sustainable reductions in the cost of both supplies and capital equipment.

“We are pleased to have someone of Richard’s quality and broad industry experience join with our team. His extensive physician preference items expertise and supply chain leadership will serve our clients well,” stated Darren Vianueva, President.

Prior to entering the Healthcare field Mr. DeVine held senior management positions with Honda of America Manufacturing Inc. and Masonite Corporation where he earned a reputation for Supply Chain innovation and strategic positioning. In 1988, he was recruited to adapt proven industrial SCM techniques for Healthcare clients. Since then he has held executive SCM positions in Healthcare organizations, and immediately prior to joining CRG Solutions was Chief Resource Officer for the Mount Carmel Healthcare System in Columbus, Ohio.

Mr. Vianueva said, “Our organization is dedicated to and has a significant demonstrated track record in, assisting clients achieve sustainable operational expense reductions throughout their Supply Chain. The addition of Richard to our team allows us to bring our unique processes to additional clients while still retaining the quality of service that has become our trademark.”

Mr. DeVine holds a Bachelor of Arts degree from Muhlenberg College in Allentown, Pennsylvania, and a Master of Business Administration in Operations from Ashland University in Ashland, Ohio. He holds the Six Sigma Certifications of Certified Champion and Certified Green Belt. He resides in Columbus, Ohio with his wife, Shelly, and two children.

CRG Solutions has for five years assisted Healthcare organizations of all sizes improve the performance and operation of their Supply Chain, through current state evaluation, opportunity presentation, and implementation assistance. The firm offers clients a suite of unique Supply Chain processes proven to aid in the areas of planning, sourcing, management, and redesign. Based out of Chagrin Falls, Ohio, CRG Solutions serves clients throughout the United States and in Latin America. For more information, please visit us at www.crgsolutions.com.
